

## SEARCH FOR A DIGITAL CALENDAR STAR...!

Digital Birmingham supported by Birmingham schools is looking for 12 or more digital families to represent Birmingham in 2010 and feature their use of digital technology. This is part of Birmingham's aim to be recognised as a leading European Digital City in 2010 which is being led by the Digital Birmingham partnership. Over 40 public, private and voluntary organisations are working together to bring the benefits of technology to everyone who lives, works and learns in the city.

During each month of 2010, Digital Birmingham will feature one or more of the families to show and tell to the rest of the world how they are using digital technology as part of their everyday life (by digital this could be digital TV, mobile phone, sat navs, internet, use of Facebook, Twitter etc). We'd like to explore the families' experiences of digital – the highs and lows and share the benefits of the digital revolution with others. All families will be featured through various online sites that will include the Digital Birmingham website ([www.digitalbirmingham.co.uk](http://www.digitalbirmingham.co.uk)), The Birmingham Grid for Learning ([www.bgfl.org](http://www.bgfl.org)) and also through local media such as Birmingham Mail.

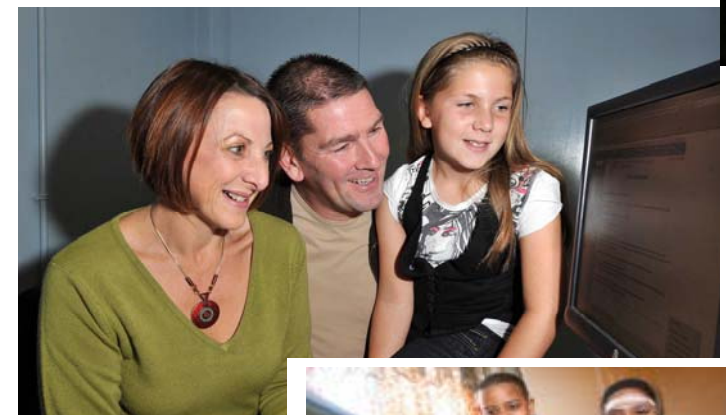

**If you are interested in becoming one of Birmingham's Digital Families 2010 then we'd like to hear from you. It doesn't matter whether you are a digital novice or indeed a digital whiz just send us your name, contact address and telephone number and in no more than 50 words tell us why digital technology is important to your family.**

All selected families featured will receive £100 of digital vouchers to support their technology use.

In addition the selected children's schools will receive a £50 voucher.

**Email your entries to [digital@birmingham.gov.uk](mailto:digital@birmingham.gov.uk) by Monday 14<sup>th</sup> December 2009.**

If you're teaching staff, pupils and their families and / or school support staff then we want to hear from you!
